

# AI-Based Multilingual Services offered by the European Commission

DG Translation – DGT.T.2 AI-Based Services

## Servizi multilingue basati sull'IA

Questi servizi sono messi a disposizione nell'ambito del programma Europa digitale e sono rivolti a varie categorie di utenti dell'UE, le amministrazioni pubbliche, il mondo accademico e le PMI.

Comprendono sia pagine web che API per l'accesso da macchina a macchina. È necessario registrarsi.

<https://language-tools.ec.europa.eu>

<https://language-tools.ec.europa.eu>

### eTranslation

Traduzione automatica neurale basata su precedenti traduzioni dell'UE realizzate da professionisti.

### eTranslation (nuova interfaccia)

Prova la nuova interfaccia in eTranslation, versione beta, funzionalità di base

### Web Text

Utilizza l'IA per migliorare il testo per un sito web.

### Accessible Text

Riscrivi il tuo testo in inglese, francese o tedesco e rendilo più facile da leggere per le persone con difficoltà cognitive.

### eSummary

Sintesi rapida di documenti lunghi.

### Post multilingue

Traduzione in più lingue alla volta di brevi testi da pubblicare su X.

### Speech-to-Text

Trascrizioni complete o sottotitoli a partire da file multimediali.

### Anonymisation

Sostituisci o nascondi nomi, luoghi e altre informazioni dai documenti.

<https://language-tools.ec.europa.eu>

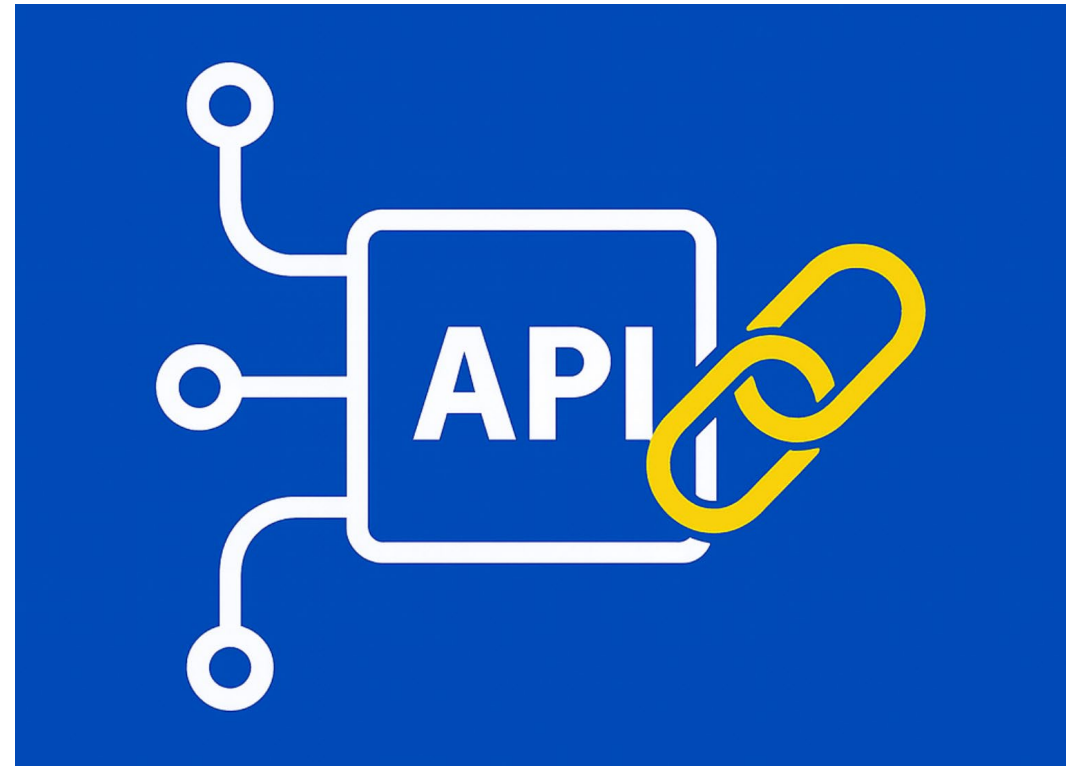

## Chi può usare eTranslation e gli altri servizi multilingua basati su IA?

- Istituzioni europee
- Amministrazioni Pubbliche della UE o Stati partecipanti al [Digital Europe programme](#) (DEP)
- Piccole e medie imprese (SMEs) della UE o DEP
- Organizzazioni non governative (NGOs) della UE o DEP
- Università della UE e degli Stati partecipanti al DEP
- Progetti finanziati dal DEP

# I nostri servizi sono costruiti per tutti

Ti diamo il benvenuto alla pagina di registrazione di eTranslation, il sistema sicuro di traduzione automatica della Commissione europea. eTranslation ti permette anche di accedere alla gamma eLangTech di servizi di intelligenza artificiale (IA) messi a punto nell'ambito del programma Europa digitale, tra cui eSummary, Anonymisation e molti altri.

Per usare eTranslation e altri servizi eLangTech di IA, occorrono due cose:

- un ID EU Login;
- un account eTranslation.

**1** Per richiedere un EU Login, clicca [qui](#). Una volta ricevute le credenziali EU Login, ritorna su questa pagina per completare gli ultimi passaggi.

**2** Inserire l'indirizzo e-mail associato al proprio account EU Login:

**3** I servizi eTranslation ed eLangTech sono a disposizione delle amministrazioni pubbliche, delle piccole e medie imprese, del mondo accademico, delle organizzazioni non governative e dei progetti [del programma Europa digitale](#) con sede nell'Unione europea o in paesi affiliati all'obiettivo strategico del programma EUROPA DIGITALE che finanzia questa attività. Anche i candidati EPSO possono utilizzarli durante la procedura di assunzione.

Indicare la categoria di utenti di appartenenza:

Dichiaro di appartenere alla categoria suddetta, che rientra nell'ambito di competenza di eTranslation.

[+ Informativa sulla privacy](#)

[Completa la registrazione e inizia a tradurre!](#)

Se hai altre domande scrivi a [DGT-AI-Language-Services-Advisory@ec.europa.eu](mailto:DGT-AI-Language-Services-Advisory@ec.europa.eu)

## Registrazione per l'utenza esterna CE

<https://language-tools.ec.europa.eu/welcome?lang=it>

Benvenuti alla pagina per ottenere le credenziali API per connettersi a eTranslation, il sistema di traduzione automatica sicuro e protetto della Commissione europea. eTranslation fa parte della serie di servizi eLangTech del programma Europa digitale.

Per connettersi al servizio web di eTranslation occorrono:

- nome dell'applicazione;
- password.

1 Per ottenere queste credenziali, attribuire un nome breve al progetto o al sito web:

<https://language-tools.ec.europa.eu/registerApiKey?lang=it>

2 Questa è una [Web-T](#) connessione?  Sì  No

Descrivere il progetto in poche parole:

Le modalità per connettersi sistematicamente a eTranslation, insieme ad esempi di codici, sono descritte [qui](#).

3 Inserire l'indirizzo/gli indirizzi e-mail professionali dei referenti principali per questo progetto:

[+ Aggiungi un referente](#)

4 eTranslation and eLangTech services are open to EU institutions and public administrations, small and medium-sized enterprises, academia, non-governmental organisations and [del programma Europa digitale](#) con sede nell'Unione europea o in paesi affiliati all'obiettivo strategico del programma EUROPA DIGITALE che finanzia questa attività.

Indica che tipo di utente sei:

Dichiaro di appartenere alla categoria selezionata, che rientra nell'ambito di competenza di eTranslation.

[+ Informativa sulla privacy](#)

[Completa la registrazione e inizia a tradurre!](#)

# eTranslation

- il sistema di traduzione automatica delle istituzioni dell'UE
- un servizio neurale MT lanciato nel 2017
- sviluppato dalla Commissione europea (DG Traduzione e DG CNECT)
- cofinanziato dalle istituzioni dell'UE + Europa digitale

# Lingue coperte : 24 + 8

# eTranslation – short text

The screenshot displays the eTranslation web interface. At the top, a dark blue navigation bar contains the following elements from left to right: a red-bordered button labeled "Translate text", a link for "Translate documents", a link for "My translations", a link for "My settings", and a language dropdown menu currently set to "English".

The main content area is divided into two columns. The left column features a large text input field with the placeholder text "Start typing your text". Below this field, on the left, is a character count "0/2500" and a trash icon. On the right is a grey "Translate" button. The right column features a large text output field with the placeholder text "Your translation will appear here". Below this field, on the right, are icons for printing and copying.

At the top of the main content area, there are three red-bordered boxes highlighting specific controls: the "From" language dropdown set to "French", a central blue double-headed arrow icon, the "To" language dropdown set to "English", and the "Domain" dropdown set to "General Text".

- Shorter terms work better
- Maximum 250 entries

# AI enhancement

# AI enhancement

- Uses EU's translation history to improve outcomes.
- AI improves accuracy using fuzzy matches.
- If no matches, translation proceeds as usual.
- Utilises "Mistral NeMo" model in eTranslation.
- Suitable for EU style texts.
- Enhances quality when translation accuracy is key.
- Not ideal for diverse subjects or styles.
- Slower than standard machine translation.
- Available from English into all EU languages.

# Future services being developed: eReporting

# eReporting

- ✓ Task-specific automated drafting service (similar to *eBriefing* and *eReply*)
- ✓ Specialised multi-step workflows and prompt engineering
- ✓ Activity reports, reporting obligations, evaluation reports, consolidated reports
- ✓ EUIs, Member States, SMEs, and more (DEP)
- ✓ Complementary to the Acquis Management programme led by OP
  - ❑ eReporting focus is on supporting the reporting entities
  - ❑ Acquis Management programme focus is on reducing reporting obligations
- ✓ First prototype in June, launch early 2026

# eReporting

A new AI-based multilingual service helping users identify and understand reporting obligations arising from EU law.

## How it works

- Upload up to 10 documents (reports, directives, or national texts)
- Choose your task and output language
- Receive an AI-generated summary of relevant EU reporting requirements

## Tasks available

- Activity Report - summarises activities against applicable reporting frameworks
- Reporting Obligations - extracts and lists obligations from EU legal sources
- Highlights – turns long policy or technical documents into clear, executive-ready briefing material.

## Technical details

Languages: 32 output languages (24 EU + 8 non-EU including Ukrainian)

## Business case

Supports public administrations, EU institutions, and stakeholders in understanding their legal reporting duties: automating a complex, multilingual analysis process.

A person's hands are shown typing on a laptop keyboard. The background is a blue-toned image with a digital data visualization overlay. The overlay consists of a grid of colorful dots (red, green, blue, yellow) and lines, resembling a data stream or a network. The overall aesthetic is futuristic and technological.
